

5 BAND DXCC RECORD BOOK

BY:
RICHARD NORLEY (WA1CFT)

THIS COPY PROPERTY OF:

INTRODUCTION

You will find within these pages a complete, accurate method of recording your contacts and QSLs received toward the Five Band DXCC Award. This Record Book is the product of a system that has been in use in the Author's shack for several years and has proved itself most beneficial. It has been designed to be used with the companion Five Band DXCC "INSTA-GRESS"[†] Book for maximum efficiency in maintaining an up to the minute record of progress. It can, however, be used by itself for a complete written record that is bound and eliminates the frustration of lost file cards, dogearing of QSLs and missing slips of paper. Blank country charts will be found at the rear of the book for keeping up with New Countries.

The 5 Band DXCC Award is issued by the American Radio Relay League, Newington, Connecticut. No attempt to list the rules and regulations has been made. They can and should be obtained directly from the A.R.R.L. by requesting operating aid number 7 and by watching the DXCC Notes in QST for changes. (Compilation of this Record Book is based on the Countries List revised October 1976). The basic rule is to work 100 countries on each of 5 Bands (total of 500 contacts and QSLs). This Record Book does not replace the "official application form" required by the A.R.R.L. and is designed solely for you to keep track of your contacts and confirmations. If used faithfully you will be able to locate the exact cards needed for your application without the laborious task of searching all logs.

IMPORTANT - STARTING DATE

CONTACTS FOR THIS AWARD MUST BE MADE ON OR AFTER

JANUARY 1, 1969

	10 Meters	15 Meters	20 Meters	40 Meters	80 Meters
Call Sign & Date Worked	KZ5KN 3/7/70 KZ5ZZ 2/6/71 KZ5AA 5/30/72	KZ5SF 8/10/69 KZ5NR 3/7/70	KZ5NR 3/7/70 KZ5ZZ 2/6/71	KZ5PW 6/4/72	KZ5RP 3/6/71 KZ5JF 2/5/72

[†] REGD. T.M.

STARTING YOUR AWARD RECORD:

There is ample space in each of the Country sections of this Record Book for you to enter the Call Signs and DATES of several stations worked on each of the bands. The countries have been listed in alphabetical order by the prefix using the same sequence as found in the Official A.R.R.L. Countries List. Only those that have been in effect since the starting date of this Award have been included. Your attention is called to the symbol "+" which will be found after contact or deletion notices following the prefix for some countries. This "Plus" indicates that for more information the A.R.R.L. Countries List (Operating Aid #7) should be checked as a status change regarding contacts has occurred.

Please refer to the illustration opposite which shows a portion of the Author's Record Book. You will note that BOTH the Call Sign and the Date of contact are entered! The DATE has been found to be extremely important and can not be over emphasized! It will refer you to the proper day in the Station Log for RE-QSLing when needed and also will serve as a double check that the contact did occur during periods required by the Award Regulations. The Moment or two taken to enter the date along with the Call Sign can and will save you hours of log searches if a recheck becomes necessary.

Start your record by deciding if this book will be kept for one or two modes. In choosing two modes select two contrasting colored pencils or pens to make your entries.* Use one color for your primary mode of operation and the other color for your secondary mode. (The Author for years has used Blue for phone and Red for CW). As explained earlier this Record Book has been designed to be used with the companion Five Band "INSTA-GRESS"† Book! If you have purchased the "INSTA-GRESS"† system with the Record Book (or plan to do so) you will be using the same colors to provide instant recognition during periods of operation of the Countries you have worked, confirmed and still need!

Dig out your log books. As this Award has a starting date of January 1, 1969 go back to your first entry under that date. Work line by line and page by page. Examine each entry for completeness of the QSO. Also look at the QSL sent and received columns. Place a color coded check in the margin of the log book. Upon completing each page, go back to the first CHECK MARK and open your Record Book to the Country. Transfer the Call Sign & Date Worked (using the correct color) into the proper column of the Country chart. If your log entry shows that a QSL has been received, enter the Call Sign in the QSL RECEIVED section. (It is a very good idea to check for the card itself at this point. If you have made a log error, NOW is the time to find out)! Transfer each entry into the Record Book. It is recommended that for the Average Country, at least two entries be made in the QSL RECEIVED column for each band, before you ignore further entries from your past logs. This will "Hedge Your Bets", in case a card is lost prior to filing application.

Note: Cards may be submitted directly to ARRL or checked by a DXCC Card Checker. If cards are sent direct to ARRL, it is not necessary to fill out this form. This form *must* be completed if a Card Checker checks the application. In *either* case, the cards or listed credits must be sorted first by band then by mode. If you fill out the form, supply all information as requested. Be sure to use the Entity name, not just the prefix. Cards indicating multiple contacts must be placed together. If cards with multiple credits are submitted direct to ARRL, a notation must be made on each card indicating which credits are to be entered. If no indication is made on a card, all credits will be entered into your record.

Your Call

Page ____ of ____

Note: Cards may be submitted directly to ARRL or checked by a DXCC Card Checker. If cards are sent direct to ARRL, it is not necessary to fill out this form. This form *must* be completed if a Card Checker checks the application. In *either* case, the cards or listed credits must be sorted first by band then by mode. If you fill out the form, supply all information as requested. Be sure to use the Entity name, not just the prefix. Cards indicating multiple contacts must be placed together. If cards with multiple credits are submitted direct to ARRL, a notation must be made on each card indicating which credits are to be entered. If no indication is made on a card, all credits will be entered into your record.
